

This “Innovation Center and Business Incubator” project is co-financed by the European Union, Ministry for Regional Development and Capital City of Prague

## We will help you succeed in the business world

### With the Innovation Center and Business Incubator you will gain a strong partner

Acceptance to one of our programs guarantees, besides an access to a broad spectrum of business services, a start of cooperation with a group of organizations, which prepared and realized the Innovation Center and Business Incubator project, which they also jointly operate. These are ČKD NOVÉ ENERGO, a.s., Energieteam Consult GmbH and Technology centre of the Academy of Sciences of the Czech Republic, who for the needs of this program have created an organization called Technology Innovation Centre ČKD Praha (TIC ČKD Praha).

### Choose the best suitable support program for your business

Have you decided to go into business? Your company is starting to get on a roll, your garage no longer offers sufficient conditions for its expansion and so you are looking for fair priced commercial premises and are contemplating how to overcome the tough period of development? Do you have a new trade established, or an excellent business idea and the only thing missing from becoming a market success are a contact network, support services of a fine tuned team of experts and a source of reliable information? Then you will surely appreciate our “**Business Incubator**” program.

Do you have an excellent idea, which could be the base of your successful future, but in order to implement it you need an expert advice and background for its completion into form of quality business intent? Then the “**Pre-Incubator**” program is exactly what you need.

Your expanding company is being innovated and prepared for a new product version and you need the administrative and organization background for its development? Are you looking for an office, which will provide you good access to business and technological counseling supporting your innovation activity? Do you believe that your company and product will attract the interest of one of the TIC founders or partners, who could become your company's strategic partner? Then it is you for whom the **"Innovation Center"** program with its services was designed.

Do you have suitable premises that provide sufficient background for your newly established company, which you do not want to move, but even so would welcome the services of an expert team providing business, technological and administrative support? Do you see a successful development for your business by connecting it to a strong and experienced partner, whose goal is your success? In that case the **"Virtual Incubator"** is something addressed to you.

Your enterprise is a success and your experience along with your company partners allow you to manage all market pitfalls, if only you did not have to lose time with the preparation of promotional materials and administrative activities, such as accepting and sending mail, providing information over the phone, arranging business meetings, or with the administration of your company server? It is you we had in mind when we were setting up the **"Back-office"** program.

Are you a successful domestic or foreign innovative company and feel that it is time to expand your activities into the Prague region? Are you looking for a partner, who will take care of the everyday operation of your company's "virtual office" in a very advantageous Prague location and whose services can help you prepare your full expansion into this region? Then it is you for whom the **"Branch Office"** program is intended for.
